

Aug 7, 1965

I spoke to M. Minovich a few days ago.

He has not had too much time to work on his program for the ~~past year~~ ^{last few months}, but is now ready to get back to it & do as much as possible on a stand-by basis. There is considerable interest in his work at JPL and they are forming a group to be perhaps headed by M M for these studies.

I suggested that M M should ask JPL to sponsor some of their computations here to the extent of say \$10,000/year - He'll check on it. We may be willing to sponsor an equivalent of time for free.
