

JET PROPULSION LABORATORY  
PASADENA, CALIFORNIA

OFFICE OF THE DIRECTOR

August 2, 1967

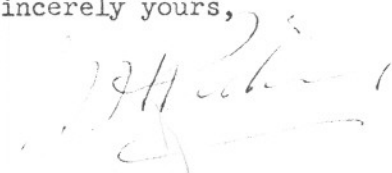

Dr. Michael A. Minovitch  
Department of Mathematics  
University of California  
Berkeley 4, California

Dear Dr. Minovitch:

Thank you for your letter of July 12 and  
the copy of your paper.

It was interesting that you met Dr. Generales.  
I have seen him quite often at a number of professional  
society meetings - he is actually a medical doctor, and  
very interested in space. As you no doubt found out,  
he is certainly a talker! I regard him as an acquaintance  
of mine, rather than a close friend.

Sincerely yours,

W. H. Pickering
