Grad Wins Prize

Graduate student Michael Minovich, Jr. has won first prize for his paper "The Determination, Analysis and Potentialities of Advanced Free-Fall Interplanetary Trajectories" in the American Institute of Aeronautics and Astronautics student competition.

Minovich was awarded the \$100 Minta Martin Award in the PhD category and will represent the West in the coming National Competition.

PUB BOARD BACKS OSTROV

(Continued from Page 1) President Nancy Rockoff was present at the Publications Board meeting. They also listened to the original presentation by the various candidates.

Other candidates considered by the Publications Board in its discussion were Art Harris and Harry Shearer, the two original candidates who appeared before the Board on Monday.

The Council went into executive session for almost two hours Wednesday night and interviewed each of the three candidates, talked to members of Pub Board present, before failing to come up with the two-thirds majority needed for approval.

Parking passes may be picked up at Delta Delta Delta Sorority in Ann Denmore's box today, Donna Rice Wray and Gerry Bye should pick up their ticket and parking pass.

In these troublesome times it takes some doing to keep one's perspective—to appraise world conditions with intelligence—and to come up with satisfying answers.

We invite you to come to our meetings and to see how we are working out our problems through applying the truths of Christian Science.

the fourth dimension: TIME ... still a mysterious concept to science. Time is only an idea, an abstraction... an area of shadow, speculation and surprise

SCIENCE WITH ME! A book about science and its applications.

Programmed Teaching Demonstrated in RH

A demonstration-exhibit of programmed instruction and teaching machines will be held from next Tuesday through Friday, in RH 170.

Prepared by the Center for Programmed Instruction, a non-profit research organization in New York, the exhibit is designed to acquaint classroom teachers, school administrators and industrial training directors with an understanding of programmed instruction and teaching machines.

The exhibit, which covers 1000 square feet, will allow the visitor to actually participate in a programmed learning experience. Examples of the various types of teaching machines, as well as color slides of all such devices now on the market, will be included in the exhibit, as will a library of all academic programs available for the 1962-63 school year.

A feature of the display will be an animated case history of how a school system incorporated programmed instruction into its on-going curriculum. This will include teachers' recorded comments and a film showing students at work with the program.

On national tour, with UCLA as its only Los Angeles showing, the exhibit is under the auspices of the Educational Media Branch of the United States Office of Education. It is being coordinated by the UCLA Academic Communications Facility in cooperation with the UCLA School of Education.

Ellis Jarvis Joins Education Faculty Lectures Tonight

Ellis A. Jarvis, former president of the Los Angeles City Schools, has been a lecturer in the UCLA School of Education, Dean J. Wilson announced.

Jarvis and UCLA geographer Richard F. Logan will discuss the metropolitan future on education a night in MH 100 in the presence of Sir John Adams sponsored by the School of Education.

Dr. Logan, an expert in geography and ecology, will speak on Southern California's Unique Environment. His talk will deal with geographic, demographic, industrial characteristics of the metropolitan area which is now under study from Santa Barbara to San Diego.

Jarvis, who spent 38 years in public education as a teacher and an administrator, will describe the problems and trends of metropolitan education.

Starting in September Jarvis will teach courses in administration of a large system and will conduct research and seminars on the problems and potentials of metropolitan school systems in the area.

ACCION FOL

UCLA graduate Joaquin Accion will speak on "H Day" at noon today in the Student Center.

Blatchford's talk, sponsored by the national organization of young volunteers to lead Accion, composed of Americans and Venezuelans, is a Latin American development project designed to improve life in deprived areas of Venezuela.

Accion's work includes erecting the building of schools and community centers, starting small industries and conducting extensive adult education programs.

Blatchford, who graduated from UCLA with a Bachelor of Arts degree in political science in 1956, was captain of the 1956 Bruin NCAA championship tennis team.

Today's Staff News Editor: David Alan Blatchford; Editor: Arnold I. Blatchford; Editor: Daryl J. Blatchford; Staff: Charles Blatchford, Charles Lee Blatchford, Blake Blatchford, and Sandy Blatchford.
