

JET PROPULSION LABORATORY

INTEROFFICE MEMORANDUM

393.1-213

August 11, 1971

TO: R. D. Bourke
FROM: M. A. Minovitch
SUBJECT: NASA Exceptional Performance Award

Regarding our discussion yesterday, I would like to express my deep appreciation to you, Mr. Lehman and to JPL for communicating to me last Friday and again yesterday the fact that JPL had officially approved the citation write-up I provided August 2 in IOM 393.1-202. As you indicated to me during our discussion, a brief summation paragraph is also required. I am attaching this additional capsule write-up which I feel is appropriate. You will note that it is very close to one of the write-ups you gave me to look over. Since the formal write-up which I submitted August 2, 1971 has already been approved by JPL, I understand that it will be sent to Washington and appropriately recorded on official records. I also understand that only the abbreviated paragraph will appear on the actual award certificate.
